👤 Portfolio

Education

B.Tech in Computer Engineering

Birla Vishwakarma Mahavidhyalaya Engineering College

Current cpi: 6.85/10.00

2022-Present

Anand, India

HSC

Shree Vasishtha Vidhyalaya

2022

Surat, India

Skills

Languages: C/C++, C#, Java, Javascript, Python

Databases: DBMS, MongoDB, MySQL

Web Technologies & Framework: HTML, CSS, Bootstrap, React.js, Node.js

Tools: VS Code, Visual Studio, GitHub

Projects

Cardiac Hospital Management | MERN Stack [🔗](#)

Tech: React, Node, Express, MongoDB, Redux

- Created Smart Hospital Management System for Cardiology which is a MERN-based web application aimed at **reducing administrative tasks** and improving cardiac care quality.
- It offers streamlined **patient management** with appointment booking and features like billing, ambulance service.

Airline Passenger Satisfaction | ML Model [🔗](#)

Tech: Python, HTML, CSS, Flask

- Developed a Flask-based web application to **predict** airline **passenger satisfaction** using a machine learning model trained on real-world data.
- Implemented data preprocessing, model training with **scikit-learn**, and integrated the model for real-time predictions through a user-friendly **web interface**.

Finance Expense Tracker | Asp.net WebApi [🔗](#)

Tech: C#, MongoDB, ASP.Net

- This is a web API project built using **ASP.NET Core**, MongoDB, Swagger and Entity Framework for documenting endpoints.
- It allows users to **securely manage** and **track expenses and income** by providing RESTful APIs for recording, updating, viewing, and deleting financial transactions, making personal finance management efficient and accessible.

Professional Experience

Web Development (Prodigy)

2024/06 - 2024/07

Intern

- Created interactive **Navigation** Menu, **Stop Watch** App and Personal **Portfolio** Website.
- Developed responsive and user-friendly web interfaces using **HTML, CSS, and JavaScript**, ensuring cross browser compatibility.
- Implemented **interactive features** (e.g., dynamic forms, animations, and DOM manipulation) to elevate user experience.

Full Stack Web Development (Nephila INC)

2025/05 - 2025/06

Intern

- Developed a secure and scalable **MERN** stack web application allowing users to **create, edit, and manage notes** with real-time updates and built **admin panel** with CRUD functionality.
- Implemented **JWT-based login/registration** with password encryption, ensuring secure access for authenticated users.
- Designed and integrated **Express.js backend APIs** for seamless communication between React frontend and MongoDB.
